## ACE EQUIPMENT RENTALS

### *Yard/Delivery Associate*

Ace Equipment Rentals became a leader in Snohomish County largely because of its customer service. Our equipment associates are responsible for keeping our equipment clean and well-maintained, and loading and unloading equipment for our customers. Yard associates also deliver in the area surrounding the store. If those duties sound like a good fit for your skill set, and you have the following, we look forward to talking with you:

- A positive attitude toward customers, co-workers, and work
- A willingness to learn our industry and customer service standards
- The ability to work with others to serve the customer, from management to yard help to delivery drivers
- An interest in working around and learning about a diverse selection of small and large equipment
- A valid Washington driver's license

It would also help if you had:

- Some experience with small equipment, either by using it or working in an industry surrounding ours
- The ability to work in both Snohomish and Marysville

To apply, please stop by our Snohomish store at 702 2<sup>nd</sup> Street.
